

Dear FCC, I am very much displeased with NAB's petition 04-160 concerning XM Radio and it's Instant Traffic and Weather. I travel for a living and I use this service all the time to check the weather abd traffic in the cities I'm driving in and out of. I feel this is a valuable service to a lot of people and XM Radio should continue to be allowed to offer this service to its listeners. Thank you for your time and consideration.
